

Summary Care Record

- Your emergency care summary.
- Contains: allergies and medications.
- Can be accessed with your permission, in an emergency, when you are on holiday, when your Surgery is closed, at out-patient clinics, when you visit a pharmacy.
- Consent will be requested every time the record is accessed and can be refused. Consent may be overridden if you are unconscious or in an emergency, any overrides are monitored and auditable.

For more information visit:

NHS National Data Opt Out

- NHS England National Programme
- Please visit their website to find out more: <https://www.nhs.uk/your-nhs-data-matters/>
- GP Surgeries are unable to set or change your national data opt-out choice, to do this you need to visit the NHS choices website above or you can contact NHS digital on 0300 330 9412 to find out more.

Surgery held Electronic Patient Record (SystemOne)

- SystemOne is a clinical computer system used by us and local community services to hold your computer patient record.
- Allows patient computer record to be shared between us and community services with patient consent.
- Patient consent is required by us at Croft Medical Centre for sharing in from other services and sharing out to other services and by each local service you access.
- Allows swifter communication between services caring for you (e.g. If you allowed sharing between us and Community Diabetes, Community Diabetes could view which medication we prescribe to you and we could view any changes they advise you to make).
- Visit www.tpp-uk.com for more information.

Your Care Connected

- Summary of your record containing: allergies, medication, hospital admissions and referrals, vaccinations and immunisations, test results, diagnoses, treatment, medical procedures, end of life wishes, demographic information (age, gender etc.), concerns related to abuse of vulnerable children or adults (if applicable).
- Can be accessed by: Local Hospitals and Community Health Services, Mental Health Teams, West Midlands Ambulance Service, Local out of hours services. See website for full list.
- Key benefits include quicker and safer care and could avoid duplication of investigations such as blood tests.
- Consent will be requested every time the record is accessed and can be refused. Consent may be overridden if you are unconscious or in an emergency, any overrides are monitored and auditable.
